Geoficiency

Reduce risks and optimise practices

Geoficiency is tailored for finance, control, and audit teams.
Harmonise and ensure the reliability of your accounting data with our comprehensive solution for control and accounting investigation.

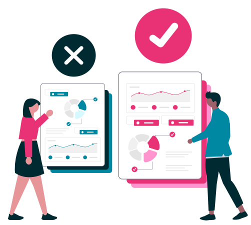
Your controls are sharper, your analyses more strategic.

Fraud & Risks

Use a library of AI-enhanced controls and atypical detection

Processes

Accurately assess the effectiveness and harmonisation of your processes across all your entities



Compliance

Meet international regulatory requirements efficiently (UK ECCTA, French Sapin 2 etc.)

Collaboration

Integrate workflows, centralise documentation, and audit trails on a single platform

Secured Financial Flows

Deploy more effective analyses and identify risk areas effortlessly

Empowerment

Attract and retain top talent by allowing them to focus on impactful tasks

Achieve smoother processes and sharper decision-making.
